INSIGHT360 (room)

Makes interview recording easy

INSIGHT360 (room) is INSIGHT360's innovative interview recording solution for police and law enforcement. Its a revolutionary approach, combines cutting-edge IoT devices with a centralized management platform. Our solution enables seamless interview recording while ensuring maximum data security and user-friendliness.

Robust IoT Recording: Ensure high-quality evidential recording on one or multiple recorders working in tandem capturing interview proceedings.

Centralized Platform: Secure, scalable server platform for managing, storing, and accessing interview recordings.

Intuitive Interface: User-friendly interface for officers, requiring minimal training.

Resilient Design: Highly reliable system with built-in redundancy and fail-safe mechanisms.

End-to-End Security: Advanced encryption and secure storage protocols to safeguard sensitive data.

Enterprise Integration: Seamless integration with existing police department IT infrastructure.

Geopolitical Neutrality: INSIGHT360-developed system, ensuring freedom from external political influence.

INSIGHT360 Interview Room

Benefits

- **Increased Security:** Worlds best protected recording solution with all IoT devices in the network backing up other devices in case of failure.
- **Increased Accuracy:** Take use of INSIGHT360's revolutionary planning tool and spend time on what matters.
- **Improved Compliance:** Meet legal and regulatory requirements with ease.
- **Accountability and Transparency:** Protect both officers and suspects through clear documentation.
- **Cost-Effective Solution:** Affordable deployment and maintenance to maximize operational budgets.
- **Distributed risk:** Working in tandem, the INSIGHT360 IoT devices support each other if one of the pods fail during the interview.
