

InSight360

Scientific Analytical Tools

# INSIGHT360

*Complete and compliant*

# INSIGHT360

*A complete compliant solution*

INSIGHT360 proudly introduces its user-friendly Body Worn Video (BWV) solution INSIGHT360 designed to empower law enforcement agencies with reliable evidence capture and seamless data management.

**User-Friendly Interface:** Our intuitive design facilitates effortless operation for officers of all technical backgrounds, minimizing training requirements and maximizing adoption.

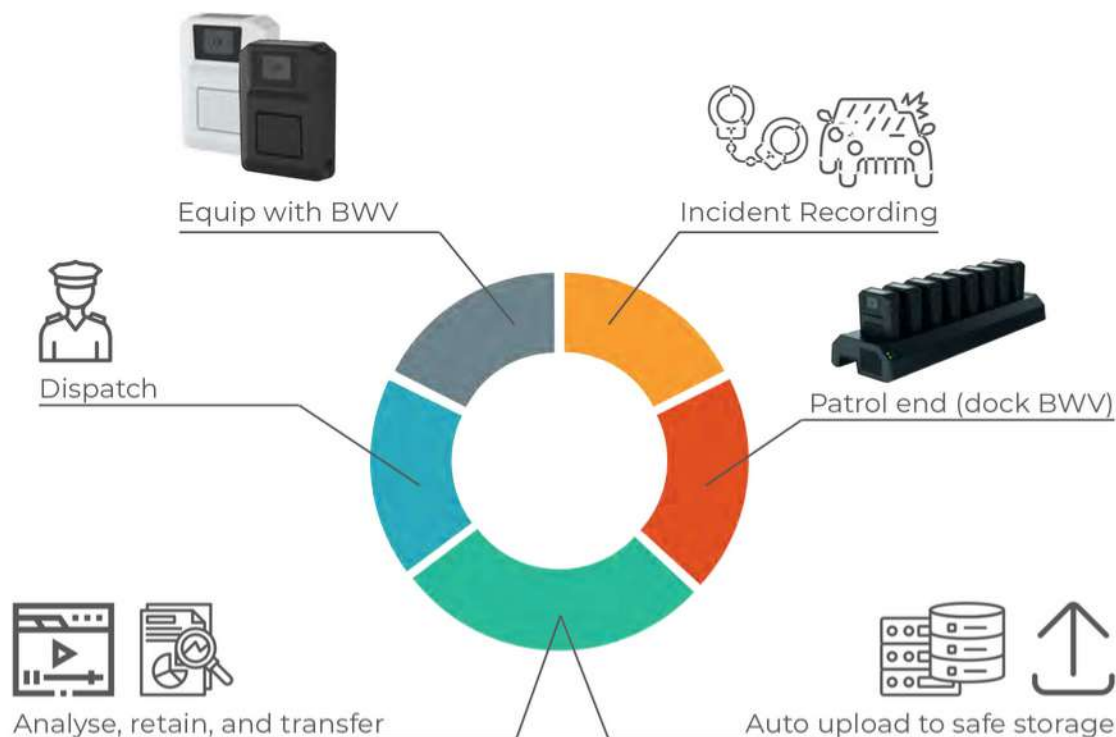

**Shared Resources:** INSIGHT360 BWV solution utilizes shareable body worn recorders, allowing officers to efficiently switch devices between shifts, optimizing resource utilization and cost-effectiveness.

**Political Neutrality:** We understand the critical importance of maintaining unbiased and trustworthy evidence collection. Our solution is developed and manufactured on neutral grounds, guaranteeing data integrity and impartiality.

**Seamless Integration:** The INSIGHT360 BWV solution integrates seamlessly with existing enterprise solutions, streamlining data transfer, storage, and analysis, ensuring efficient workflow within your organization.

# A sensible BWV solution

## Key Features:

- Video h.264 recording (1920x1080)
- Rugged Casing (IP67-rating)
- Positioning (BeiDou, GLONASS, GPS)
- Built-in accelerometer
- Built-in gyroscope
- Audio Support
- Built-in microphone
- Optimal image sensor size (1/2.9")
- Light sensitive (0.1 lux)
- Optimal focal length (2.3 mm)
- Horizontal field of view (137 °)
- Vertical field of view (76 °)
- Politically neutral
- Automatic data upload
- In-car triggers
- Sharable BWV cameras
- HTTPS encryption
- MOLLE mount
- Helmet camera expansion
- RFID integration
- 15 hours operation (@ 720p)
- Low weight (200g)
